

HARISH KUMAR R N S

Python Developer | AI & NLP Applications

hkrns523@gmail.com • 6369904976 • linkedin.com/in/harish-kumar-r-n-s-b6320037a • Rajapalayam, Tamil Nadu

SUMMARY

Python Developer trained in backend web development at PySpiders institute. Built and deployed an AI recruitment platform using Django and Sentence Transformers, featuring automated ATS scoring, semantic resume analysis, and dynamic interview evaluation. Seeking an entry-level Python Developer role to apply backend engineering and AI/NLP skills in real-world projects.

TECHNICAL SKILLS

Languages: Python, SQL, HTML5, CSS3

Frameworks: Django

AI / NLP: Sentence Transformers, Cosine Similarity, Semantic Embedding Vectors, Regex Text Parsing, scikit-learn

Databases & Tools: SQLite, Git, GitHub, Postman, Render Deployment

PROJECTS

AI-Powered Interview & Resume Analysis System

2026

Tech Stack: Python, Django, Sentence Transformers, Cosine Similarity, SQLite, HTML/CSS

- Developed an end-to-end AI recruitment platform with an NLP-based resume parser that performs skill extraction and semantic similarity matching using Sentence Transformers and enabling automated ATS scoring and role prediction.
- Implemented dynamic interview question generation based on candidate resume content, with automated answer scoring, performance analytics, and a recruiter dashboard for comprehensive evaluation.
- Deployed the full application on Render with QR-code access, secure user authentication, and an end-to-end recruitment workflow.

Live Demo: <https://ai-interview-system-ccvs.onrender.com> **GitHub:** github.com/hkrns523-creator/ai-interview-system

(Note: Hosted on Render free tier — may take 30–60 seconds to load on first visit)

Student Performance Dashboard

2025

Tech Stack: Python, Django, Chart.js, SQLite, HTML5, CSS3

- Built a full-stack Django web application with complete CRUD operations on student records; implemented computed model properties for total marks, percentage, grade (A+ to F), and pass/fail logic with live roll-number search.
- Integrated Chart.js doughnut chart for live Pass vs Fail visualisation with summary dashboard cards, login-protected views using Django auth decorators, and a responsive Bootstrap 5 UI with Font Awesome icons.

EDUCATION

B.E Mechanical Engineering — Thiagarajar College of Engineering, Madurai

2021 – 2025

CGPA: 8.23

CERTIFICATION

- Certified in Python Full Stack Development — PySpiders, Velachery

LANGUAGES

English (Professional Proficiency) • **Tamil** (Native)
