TECHNICAL SKILLS

- Python
- HTML
- CSS
- JavaScript
- SQL

PERSONAL SKILLS

- Willingness to learn
- Adaptability
- Self Motivation

LANGUAGES

- English(Read,Speak,Write)
- Tamil(Read,Speak,Write)
- Hindi(Read)

HOBBIES

- Chess
- Listening Music

PROFILE

Entry-level developer with strong interest in web development. Skilled in HTML, CSS for frontend, SQL for database management, and Python for logic construction. With the objective of utilizing my abilities in a live software development process.

PROJECTS

Design and Development of PLA 3D Printer

- The project focuses on developing a printer with a build volume (375 x 375 x 350 mm) while maintaining high dimensional accuracy using components like the Arduino Mega, RAMPS 1.4 shield.
- Implemented the softwares such as Pronterface, Slic3r, Cura, Creo 4.0 and Marlin
- Set up and calibrated a 3D printer to produce accurate, high-quality prints by adjusting firmware, hardware and print settings through testing.

Smart Waste Bin Automation System

- Designed and built an automatic waste bin that closes its lid using sensors when it gets full, helping to prevent overflow and maintain cleanliness.
- Added a notification system to alert when the bin is full, making waste collection more efficient.
- Created and tested a working prototype using Arduino and ESP32, focusing on low cost, easy use and suitability for homes, offices and public places.

EDUCATION

Bachelor of Engineering

2021-2025

Mechanical Engineering

Thiagarajar College of Engineering, Madurai

CGPA:8.23/10.0
